## Metropolitan Detroit Medical Library Group

## About MDMLG

Today, MDMLG serves as a communication mechanism for its members by providing an opportunity to study common problems, work on joint projects, and enhance the quality of service in biomedical libraries.

### Who belongs to MDMLG?

Members include professionals, paraprofessionals, and students who are interested in biomedical libraries. The current membership represents hospital, academic, and special libraries from Southeastern Michigan.

The Metropolitan Detroit Medical Library Group (MDMLG) can trace its roots to the Biological Sciences Group established by the Michigan Chapter of the Special Libraries Association in 1946. During the 1960's, several plans came into fruition including the production of a serial locator tool, the creation of a union catalog of monographs, and the establishment of an active interlibrary loan network. The group began the process of formal organization and chose its current name in 1970.

### MDMLG Health Science Award

The MDMLG Scholarship is awarded to MLIS students interested in the medical/health sciences field of librarianship. The award encourages students to consider the health sciences librarianship courses and provides a full, one year membership to MDMLG, an award certificate, presentation of the award at the MDMLG summer program and luncheon, and a monetary award of \$200.00. Applications are usually accepted annually in February-March.
